Z210106-2	φ86x15	2W	40lm

Is a highly versatile step light, with limited dimensions and a slim design that can be installed in plasterboard or brickwork. It can be fixed to the traditional electrical junction box and house the driver directly in it, or it can be installed surface mounted. A recessed/not-recessed luminaire for wall mounting. It concentrates all the advantages of a recessed fitting, but without requiring a recessed box in the wall. Due to this easy and user friendly method of installation, is a unique LED luminaire, assuring high lighting performance and total absence of glare.
