

Model: IL-9548-W

A decorative outdoor classic wall light, often called a sconce, is a fixture designed to mount on a wall and provide illumination, particularly in a traditional style. These lights are characterized by ornate details, classic shapes, and often feature materials like wood, brass, or copper, sometimes with frosted or smoked glass for a softer light. They are frequently used to enhance entryways, patios, or architectural features, adding a touch of timeless elegance and a welcoming ambiance.

Technical Data

- Housing : Stainless Steel 304
- Diffuser : Glass
- Installation Type : Wall Mounted
- Dimensions (LxWxH) : 200x200x400mm
- Light Source : E14
- Finish : Powder Coated - White / Black
- IP Rating : IP20
