

LED POLE LIGHT

The housing and technical components have been carefully selected to ensure economic and a long service life for all products in the range. The high quality is also detected in the numerous steeping terms of installation, maintenance and operation with IP65 and the “invisible” power supply via delicate steel cables inside the diffuser cylinder.

• CONSTRUCTION

- Aluminum housing / Steel Housing
- Acrylic Lens diffuser
- Symmetric / Asymmetric Lens Option
- Available Finishes – Any RAL Choice
- Electrostatic Marine Grade powder paint
- IP65 / IK09
- 1/2 Side Illumination Option
- Custom made Height upto 6mtr
- Available Sizes – 150x100mm

• TECHNICAL DETAILS

- High quality Philips SMD LED
- Multiple Power options 30W/40W/50W/60W
- Philips/Meanwell LED Driver
- 50,000Hrs Life Span
- Optional CCT 3000K/6000K
- CRI 80
- Efficacy - 85lm/W
- Power Factor 0.9
- Operating Voltage 220-240V AC
- Rated ambient temperature: -20°C to 50°C
